Interested? Read on!

Key details:

Job type: Full-time job

Form of employment: B2B or Employment contract (to choose by you)

Workplace location: Saule S.A. HQ at Dunska 11 Street, Wroclaw, Poland

Date of job offer publication: 12.03.2024

Accepting applications until: as long as the job opening is listed on <https://sauletech.com/careers/>

Starting date: April 2024 (negotiable)

Requirements:

- Degree in IT, Finances, Data Analytics, Economics or a related field
- Minimum 2 years of professional experience in a position involving programming, data analysis and related fields;
- Very good knowledge of the MS Office (especially advanced knowledge of MS Excel with VBA);
- Experience in working with applications that automate everyday tasks, e.g. Microsoft Power Automate, Automation Anywhere/Power Apps
- Knowledge of relational databases and SQL
- Highly developed analytical skills
- Proactivity, problem-solving and a self-starter mindset
- Professional proficiency in English and Polish, enabling communication in an international work environment

Nice to have:

- Knowledge of Python

Responsibilities:

- Preparing studies, economic analyses, financial models, budgets and budget implementation analyses
- Creating tools supporting business processes
- Preparing reports and summaries (cyclical and ad-hoc)
- Automating and improving data analysis processes
- Participation in the creation of an interactive web application - a management dashboard for the management staff (using Python, SQL, JavaScript, HTML, CSS)
- Creating databases and data warehouses
- Reporting to the Chief Financial Officer

What do we offer:

- A competitive salary
- Private medical care
- Group insurance subsidized by the employer
- Relocation support
- Parking space for employees
- Company integration events
- A friendly atmosphere based on mutual respect, trust, and cooperation
- Professional development in a dynamically growing company
- A chance to work in an international community

About us:

Saule Technologies is a high-tech company operating in the field of photovoltaics. We develop and manufacture innovative solar cells for BIPV, BAPV, powering consumer electronics and much more. Our inkjet-printed perovskite-based cells are flexible, lightweight, ultrathin, and allow to generate energy from both the sun and artificial light.

Our team consists of talented, driven, and collaborative professionals from various parts of the world. We are always looking for smart people, who are ready to work in an inspiring and dynamic environment.

How to apply?

Please send your CV and a cover letter to job@sauletech.com. Include the position name in your subject title.

Also, we kindly ask you to include the following data processing agreement clause in your CV:

"I hereby give consent for my personal data to be processed by Saule S.A. for the purpose of conducting recruitment for the position for which I am applying."

Should you wish to have your application stored at our database and taken into consideration in case of future recruitment processes for this or similar positions, please also add:

"I also consent to processing of my personal data by Saule S.A. for the purposes of any future recruitment processes."

Thank you in advance. We are looking forward to hearing from you!

P.S.: Are you not an exact match for this position, but would like to keep an eye on the other, future job openings at Saule Technologies Inc.?
